John Moore drops a bombshell at the very beginning of this video; he received the following information from one of his longest held confidential sources: There are AT LEAST 50,000 Russian Spetsnaz troops now in the United States, confirmation of information that he has been hearing for the last 2 1/2 years. John goes on further in telling us that BOTH RUSSIAN & CHINESE submarines are now off of BOTH COASTS of the United States right now and off the coast of the Gulf as well. This is not the first time that we have heard this information and China has gone so far as to publish maps showing what cities they could strike should they initiate a nuclear war against America. Are they now preparing to do so?

I fail to see how it would be a negative if China nuked the most liberal cities [full of fags and non-Whites] in America.

They'd probably secure the total allegiance of every suburban White person in the country.
